Preface

This criterion outlines the university's attempts to meet the needs of students in both the advanced and slow learners categories. Students in all courses are categorised as Slow learners or Advance learners based on their grades and observations in class. The University organises a variety of activities and initiatives to assist Slow learners in improving their performance in both academics and extracurricular activities. Similarly, advanced learners are encouraged to do their best work by being prompted to train them for success in the corporate sector.

Circular

As we all know GLA University is always committed to the ethical pursuit of knowledge and assuring our all stakeholders that we are taking all necessary actions and interventions to support and encourage both the Advance learners and slow learners.

For this purpose, policy guidelines on advance and slow learners are framed for the Session 2016-17. You are required to identify Advance and Slow Learners from your respective Programme semester wise and ensure the timely conduct of necessary actions and activities as per the policy guidelines.

POLICY ON ADVANCE LEARNERS AND SLOW LEARNERS

Introduction

GLA University, Mathura is committed to the ethical pursuit of knowledge. In order to ensure the integrity of faculty evaluation of students, all members of the University community share responsibilities for ensuring that students have demonstrated successful mastery of the learning objectives for each academic activity. By conferring a degree, GLA University, Mathura, is assuring the general public that the student has successfully met all requirements for graduation, including meeting the learning objectives for each academic activity. This is possible through the process of making the academics more exigent and competent for the advanced learners and also by supporting the slow learners to achieve more in their academics and personal life. In every academic programme, there will be some students who can do really well and learn more with the comprehension capacity, retention ability and hardworking practices. On the other side some students may find disadvantage in their learning process due to various personal or systemic reasons. In both these situations, the students may need special attention and interventions to make their learning academics more enriching and effective.

The Concepts

Advanced Learners

Advanced Learner refers to the students who learn activities faster than the other students in the class and achieve high scores and make significant achievements in their life. They are more potential with their comprehension, retention, memory, critical thinking, creativity and contextualization practices. They also may have hard working behaviors and usually achieve more than the majority of the classmates. These students are in a great extend gifted and talented than the others in the class. These students can take up higher level learning and academic responsibilities. They can bring some new concepts, strategies, and also can take the leadership in the teaching learning activities.

Slow Learners

The slow learners are below average achievers and require special attention in their academic life. They find it difficult to understand the lessons and may have difficulties in their comprehension, retention, reproduction and integration. They may fail in articulations and critical reflections. Motivation levels of these students also may be poor and may find it difficult to adjust with the teaching learning process.

Methods of Assessment

Conduction of Activities for Advanced learners

- Guiding the students for Competitive Examinations such as civil services, GATE etc.

- Guiding for career planning.
- Discussion or seminar on the advanced topic.
- Guiding and encouraging to communicate research papers in Conferences/Journals
- Training programs for gaining advanced technical know-how.
- Motivating the students for start-ups.
- Encouraging to complete NPTEL/Advanced courses
- Encouraging to participate in various symposiums like quiz, poster presentation, Conferences, inter institution competition etc.

Conduction of Activities for Slow learners

- Provisions should be made in weekly time table by adding extra one hour to conduct problem solving sessions /revision sessions/extra sessions.
- Provision of bridge classes and remedial class
- Personal Attention should be provided by respective subject teacher in teaching
- Assignments and solving University question papers
- Counselling – special hints and techniques
- Students study groups are formed for peer-to-peer learning
- Special attention is given to the students in the tutorial classes, who are identified as the slow learners.

The process of giving additional input to the advanced learners is to support them in achieving higher goals in their life and proper utilization of their competencies while the additional activities for slow learner is to make them better achievers. Even if the students are classified as slow learners or advanced learners in the class but they should not be labeled as the extra ordinary or poor but they need to be treated equally in the class with supportive care and appropriate pedagogical systems so that the talented can make more achievement and the less talented also make their goals in life achieved.

Outcome of the Event

The workshop on "**Startup – Issues & Challenges**" was conducted by Mr. Prakhar Pratap Singh to motivate and guide them about the various issues and challenges faced by budding entrepreneurs.

Entrepreneurship requires energy and creativity – two traits that most management students have in spades. Many students also possess the internal fire it takes to change the world. By hosting this Workshop, it nurtured and encouraged student's passions, while helping them develop practical business skills. In today's world, everyone needs to think like an entrepreneur. Through the interactive sessions with other young entrepreneurs, students are able to identify trends and formulate visions for possible futures.

Outcome of the Event

The One day workshop on "**Research Report writing**" was organised by Institute of Business Management, GLA University, Mathura to encourage and guide students about the various issues and challenges they may deal with while writing a research report. When you perform research, you are essentially trying to solve a mystery—you want to know how something works or why something happened. In other words, you want to answer a question that you (and other people) have about the world. This is one of the most basic reasons for performing research.

But the research process does not end when you have solved your mystery. Imagine what would happen if a detective collected enough evidence to solve a criminal case, but she never shared her solution with the authorities. Presenting what you have learned from research can be just as important as performing the research. The students got a good insight about basic intricacies of research report writing while also understanding its importance in today's dynamic world too.

Outcome of the Event

The Institute of Business Management, GLA University, Mathura organised a workshop on **"Developing Skills for Clearing Competitive Exams & Facing Interview"** which was conducted by Mr. Shobhraj Sharma, Training Head – Vodafone Spacetel Ltd. from Bhubaneshwar. The workshop was aimed at developing aptitude as well as attitude in students to appear and crack various competitive exams. People feel stressed as they hear about INTERVIEW. Most of them focus only on the questions to be answered in the Interview. Interviewing skills are a set of interpersonal skills that allow you to interact comfortably with the interviewer and show them why you are the best candidate for the position you are applying for. Interviewing skills are the set of skills that help you highlight your best hiring features in every aspect the interviewer is paying attention to.

During the interview, the interviewer will pay attention to more than what your answers are to each question. They will also be looking for how comfortable and confident you are, how well you communicate, what your body language is saying, how you portray yourself and how you will fit into their work environment. But the interview is the test of not only knowledge but behaviour and honesty too. The key to putting in a good performance and securing the job is preparation.

Outcome of the Event

The '**Special Classes on Career Counselling**' were successfully organized by the **Institute of Business Management, GLA University, Mathura.**

Interaction with youth on personality development, soft skills and their future career was done by personals from various organizations. Career Counselling is the pivotal cog in a student's journey. A good career counsellor makes the perfect roadmap for students and based on which they can achieve their goals. The career counsellor can give the right direction to the child alongside advise the parents to take up progressive decisions.

The choice of the career is based on the aptitude and interest of the child. Sessions were taken up on development of confidence, facing interviews and decision making. The sessions will help in motivating these students to go forth with their choice of careers.

Instructions:

1. Only candidates who have taken the Common Admission Test (CAT 2016) are entitled to receive the score card. Keep a print-out of this score card for your information pertaining to CAT 2016. You will not receive score card by email or by post.
2. The Overall Scaled Score is the sum of the scaled scores of the candidate in different components.
3. Percentile refers to percentage of candidates who receive score less than or equal to the score obtained by the candidate.
4. IIMs and Non-IIM member institutions independently decide how to use CAT 2016 scores on the basis of their own selection process. The scores are to be used only for selecting the candidates to their Post Graduate / Fellow Programme(s) in Management.
5. Detection of instances of incorrect information and process violation by a candidate at any stage will lead to disqualification of the candidate. Candidate's score will become null and void and he/she will not be allowed to appear for CAT in future. If such instances go undetected during the current selection process but are detected in subsequent years, such disqualification will take place with retrospective effect.
6. All queries regarding post-CAT 2016 selection process must be directed to respective IIMs. CAT Centre will not answer post-CAT related queries.
7. CAT 2016 score is valid only until 31st December 2017 and subject to meeting the minimum eligibility marks in the qualifying examination.
8. Toll free number 1-800-266-3549 will be available till 20th January, 2017 and webmail support cathelpdesk@iimcat.ac.in will be available till 31st March, 2017 respectively.

Management Aptitude Test and Test Scores

- 1 The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.
- 2 MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- 3 All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.
- 4 The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.
- 5 The percentile below column indicates the percentage of candidates in the test who scores below that of the candidate in the section.
- 6 The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 100 to 500.
- 7 The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.
- 8 All scores and percentile below figures are reported after rounding off to the nearest whole number.

Outcome of the Event

Institute of Business Management, GLA University, Mathura has organized one day workshop for Students of Batch 2016-19, titled “**Motivational Skills & Team Management**”, by Dr. Inder Pal Singh, KCLIMT, Jalandhar & Mr. Sangram Singh, CTIMT, Jalandhar where an in depth information is shared with the students. These will encourage students to think positively about themselves at all times.

Successfully motivating others is an important skill that you'll want to point out to potential employers. Employees can use motivation skills to increase their chances of getting positive results when interfacing with customers, subordinates, upper management, suppliers, donors, team members, funding sources and supervisors. For managers, who must inspire a whole team, the ability to motivate is usually a requirement.

Outcome of the Event

The **Remedial classes for English Language Skills** helped students in getting good placement packages. English communication increases income. All good jobs need good English communication skills. Business requires you to be able to talk to clients in English. Students will heighten their awareness of correct usage of English grammar in writing and speaking. Students improved their speaking ability in English both in terms of fluency and Comprehensibility. Students gave oral presentations and received feedback on their performance. The future of business lies in a global economy, and many employers now require employees to speak English.

Students may improve their reading fluency skills through extensive reading that will enlarge their vocabulary by keeping a vocabulary journal. These will encourage students to think positively about themselves at all times.

Outcome of the Event

The **Remedial classes for Accounting and Finance** helped students in understanding about the incoming and outgoing cashflow. It will also help future managers in taking better decisions and in moving forward to avoid failure. The accounting cycle is the holistic process of recording and processing all financial transactions of a company, from when the transaction occurs, to its representation on the financial statements, to closing the accounts. One of the main duties of a bookkeeper is to keep track of the full accounting cycle from start to finish. The cycle repeats itself every fiscal year as long as a company remains in business. The accounting cycle incorporates all the accounts, journal entries, T accounts, debits, and credits, adjusting entries over a full cycle. When businesses manage their income and expenses there is a stronger potential for growth. Plus, there's better access to strategies that can help companies survive unexpected financial downturns. These classes will acquaint the students with the fundamentals principles of financial, cost and management accounting and will also enable the students to prepare, analyse and interpret financial statements.
