Event Title: One-day workshop "Research Paper writing"

Speaker/ Resource Person: Prof. Vineet Kumar, NSIT, New Delhi

Date: 07 Oct 2017

Venue: Department Library (R-2011), AB-II

Faculty Coordinator(s): Dr. Vinay Tomar

Participation: Faculty members of Department of Electronics and

Communication Engineering

#### Objective of the Program:

• To identify parts that comprise a scientific research paper.

• To understand the process of writing a research paper.

• To understand what to include/exclude in the various sections of a research paper (introduction, method, results, discussion, references)

(Dr.VinayTomar)

#### **Biography**

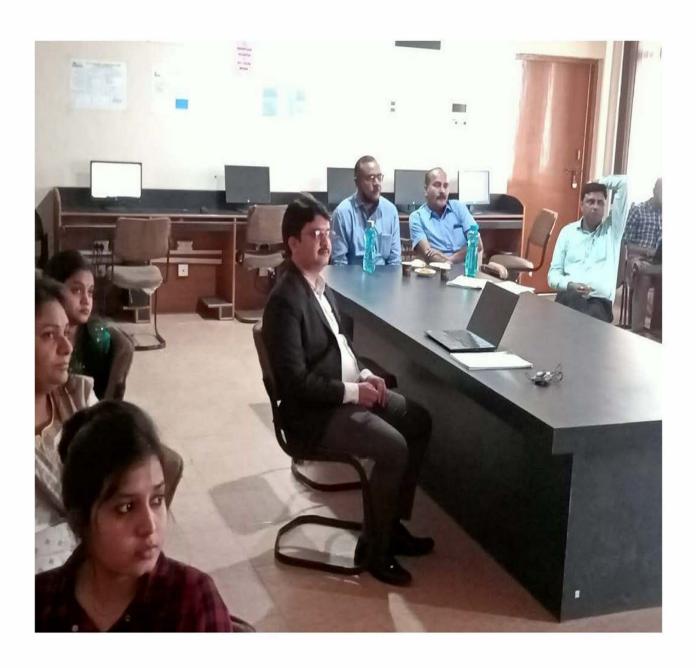

Vineet Kumar received M.Sc. degree in Physics with electronics from Govind Ballabh Pant University of Agriculture & Technology, Pantnagar, M. Tech. degree in Instrumentation from Regional Engineering College, Kurukshetra, and Ph.D. degree from Delhi University. He has served industry from 1996 to 2000. Since July 2000, he has been associated with the Netaji Subhas Institute of Technology (NSIT), Delhi University, Delhi, India. Currently, he holds the post of Associate Professor in the Instrumentation and Control Engineering Division, NSIT. He is a Life Member of the Indian Society for Technical Education (ISTE). His research interests include intelligent process control, intelligent control techniques and their applications, digital signal processing, and robotics.

#### Research Interest

Intelligent process control, Soft computing based control techniques and their applications, Digital Signal Processing and Robotics.

#### **Research Interests**

Optimization; Computational Intelligence; Swarm Intelligence; Soft Computing

Dr. Jagdish Chand Bansal is an Associate Professor at South Asian University New Delhi and Visiting Faculty at Maths and Computer Science, Liverpool Hope University UK. Dr. Bansal has obtained his Ph.D. in Mathematics from IIT Roorkee. Before joining SAU New Delhi he has worked as an Assistant Professor at ABV- Indian Institute of Information Technology and Management Gwalior and BITS Pilani. His Primary area of interest is Swarm Intelligence and Nature Inspired Optimization Techniques. Recently, he proposed a fission-fusion social structure based optimization algorithm, Spider Monkey Optimization (SMO), which is being applied to various problems from engineering domain. He has published more than 60 research papers in various international journals/conferences. He is the series editor of the book series Algorithms for Intelligent Systems (AIS) and Studies in Autonomic, Data-driven and Industrial Computing (SADIC) published by Springer. He is the editor in chief of International Journal of Swarm Intelligence (IJSI) published by Inderscience. He is also the Associate Editor of IEEE ACESSS published by IEEE and ARRAY published by Elsevier. He is the steering committee member and the general chair of the annual conference series SocProS. He is the general secretary of Soft Computing Research Society (SCRS). He has also received Gold Medal at UG and PG level.

#### About the workshop

Dissemination of IT leads to make more complex system of intellectual property right because it is a race to develop something new and register it. This workshop is dedicated to explore the concept of intellectual property and its practical aspect. Workshop is also discussing the detail process of registering the intellectual property. Intellectual property (IP) Canvas is a category of property that includes intangible creations of the human intellect. There are many types of intellectual property, and some countries recognize more than others. The most well-known types are copyrights, patents, trademarks, and trade secrets. The modern concept of intellectual property developed in England in the 17th and 18th centuries. The term "intellectual property" began to be used in the 19th century, though it was not until the late 20th century that intellectual property became commonplace in the majority of the world's legal systems.

#### **About GLA University**

The GLA University is one of the emerging NAAC accredited "A" grade. The university is home to more than 12,000+ students and boasts of a 26000+ alumni base. The university runs a gamut of diploma, undergraduate, postgraduate and doctoral programs. The University has more than 550+ full-time well qualified teaching staff with 700+ non-teaching staff members. The University has Moll with Arkansas University, USA, California state University, Sol Bernardino, USA, University of St. Thomas, Minneapolis, USA and few others. Various MNCs have set-up their labs and Center of Excellence at the University, thus indicating its uncompromising approach toward quality professional education.

#### **About the Department**

Career is at the forefront for every conscious student and they intend to pursue such programmes which would enable them towards realizing their future aspirations. The undergraduate management department of Institute of Business Management understands that well, owing to its decade-old legacy. Comprehensively-researched four programmes, namely, BBA, BBA-Family Business, BBA Honours, and B.Com Hons. Economics cater to their unique needs with broad-based career choices, hallmarked by course curricula offered under the CBCS (Choice Based Credit System). Classroom learning is suitably complemented by regular exposure through industrial visits, guest interactions, workshops and seminars. Theoretical inputs are well supported with practical insights. In the last decade, the alumni of the department have proved their mettle by doing wonderfully well in various PSUs, banks, corporate sector, government establishments like Indian Army and Ministry of Finance or successfully establishing themselves as entrepreneurs.

**GLA University, Mathura (U.P.)** 

#### About GLA University, Mathura:

It was the year 1991 Shri Narayan Das Agrawal decided to fulfill the dream of his father, Late Shri Ganeshi Lal Agrawal, of establishing an institute for quality education to the people and the region & beyond and initiated Sri Jagannath Prasad Ganeshi Lal Bajaj Charitable Trust Samiti in an attempt to make the holy city Mathura a recognized destination for knowledge seekers from different spheres of life. This is what led to the foundation of a milestone at the karmabhoomi of the versatile and sagacious Lord Krishna. GLA has been actively involved with social causes since its very inception and has drawnappreciation from one and all for its works in various facets of societal paradigms.

#### **About Workshop:**

 Basic concepts and foundations of research methodology and academic writing which shall include identification of research problem, objectives and conceptual framework.

- Approaching a research problem and planning research: Drafting research proposal based on a comprehensive literature search.
- Performance indicators of published research.

#### About the University

GLA University aims to provide knowledge, research and education in the various fields of Engineering, Management, Science etc. Through its innovative and comprehensive scheme of education, GLA University aims at excellence. In order to provide relevance and meet heavy demand of the industry for skilled and technical manpower, GLA University offers Graduate, Post Graduate and Diploma courses in various branches.

#### About the Department

The mission of the IBM is to foster academic excellence by imparting quality education at undergraduate level: and research opportunities at graduate levels with empowered faculty and staff. Students are provided with a strong academic foundation in business, and are prepared to become global citizens who are productive, competent, environmental conscious, ethical professionals with social responsibility. The IBM cultivates a highly-interactive, studentcentric and conducive to learning environment that is embedded with state of art the methodologies nstructional and the development of leadership and life- long earning skills in its students.GLA Management Department is one of the best Management Colleges in UP in the state with over 2000 students and 80 plus faculty nembers, offering a wide range of pecialization like Business intelligence.

Data analytics, Supply chain management, Logistic management, I.B, I.T, H.R. Marketing, and Finance, MBA in Financial Market, Logistic and supply chain management etc. with flexible i.e. choice-based credit system (CBCS) and dynamic curriculum, exciting research and corporate connections are the features that set Management Department apart. Objective and aim of the department is always to inculcate the Managers like qualities (M.L.Qs) in the students so that they not only achieve high in their academics but also in career and personal life.

#### About the FDP

The quantitative information available for managerial decision making has increased manifold in recent years. However, this information has to be mined using appropriate statistical techniques and combined with common-sense to derive knowledge out of it. Effective knowledge creation leading to innovative insights is essential for both academia and industry. The academia needs to continuously learn and upgrade itself about the scientific methods of doing research. This is vital for generating key insights and thereby, assists the industry to be more profitable and accurate in its decisions. The FDP on "Time Series and Panel Data Analysis" provides insights on Investment Decisions, Risk Analysis, Project Appraisal, Security analysis, Decision Making and Financial Modelling.

This FDP is being envisaged in making participating faculty members aware of the fundamental concepts in Statistics.

**Expected Outcomes** 

 The programme will promote conceptual clarity of importance of application of innovative scientific teaching techniques amongst participants.

· It will facilitate insight to different research models

and their application in teaching.

 Would motivate the participants to understand the importance of managing the students in changing paradigm shift in teacher-student relationship.

 It will provide an opportunity to be taught by experts and share experiences with co-participants across India.

· The programme will focus on maximizing hands-on

development of practical skill.

 This course orients the teachers for a technology-rich future and keeps up with the change by adopting effective strategies that infuse lessons with appropriate technologies.

Dr. Somesh Dhamija (Professor & Head) IBM (UG) GLA University, Mathura International Management Conference 2017 (IMC 2017) - "4G – Good Governance & Global Growth" December 14-15, 2017

#### About the event

The contemporary world has come to redefine the ways in which organizations define success and good governance. The quality management and orientation of development policies has a positive influence on economic performance. Economically, the proper functioning of markets is correlated to the proper functioning of institutions through efficient practice of state governance, what is commonly called good governance. Good governance policies are relevant if countries reach a sound level of economic and social development that enables institutions of good governance to boost growth. Paramount to all this is the aspect of innovation which has led the world order like no other. in order to succeed, would do good to embrace these innovations thereby making them soar above their competition. The present conclave is an effort in such a direction.

#### Objectives

This conclave is aimed at thoughtful exchange of ideas among professionals belonging to the corporate domain as to how they define corporate success with global growth. The outcome of such engagements would be quantified to the best possible extent. The gathered experts would share their views on how governance can help in economic development. The practitioners from various fields shared their mantra for achieving success, and sustaining the same, through the course of the conclave.

Workshop for Students on "GST - Concepts and Prospects" conducted by Mr. Bhupendra Goyal, Assistant Director - Ministry of Finance, Government of India, New Delhi on November 13, 2017

#### About the event

Considering the importance of GST concepts for students IBM (UG) department of GLA University had organized an interactive workshop for the students "GST - Concepts and Prospects". Drawing upon the international experience Mr. Bhupendra Goyal, Assistant Director - Ministry of Finance, Government of India, New Delhi interacted with students and explained all related concepts and clear the students doubt on the topic . Session was conducted for students to make them aware about Supply for GST purposes covers all forms of supply where goods and/or services are supplied in return for a consideration. Any transaction involving supply of goods and/or services without consideration is not a supply unless it is deemed to be a supply under law.

### Summary

Intellectual property refers to the creations of the mind, such as inventions, literary, artistic works, designs, symbols, names and images used in commerce. Universities and Public research institution (PRI) play an important role in advancing the frontiers of science and technology. They are birth places of pioneering discoveries and inventions that have enhanced the lives of millions.

Knowledge and technology generated in universities and PRIs can have immense economic and social benefits. Getting discoveries from a lab to the market place is the central reason for a University/PRI to develop a robust intellectual property (IP) policy.

The University campus is spread across more than 120 acres of lush green pollution free ground. The University is home to more than 12000 students studying in a gamut of professional courses in various departments. The university premises are one of the regions. The Infrastructure facility at the campus are top notch and deserved mention for the well designed and maintained building, Labs, Hostels, recreational facilities etc. the residential facilities are provided with utmost care and have been well appreciated. Teaching fraternity at GLA University comprises of highly qualified professionals with abundance of experience in technical education. The University has got more than 650 full-time qualified teaching staff on its rolls, who receive committed support from other 750 staff members.

GLA University runs courses in B.Tech. (CE, CSE, EE, EN, ES, EC, ME), B.Pharm, BBA, BCA, B. Com (Hons.), B.Ed., B.Sc. and M.Sc. (Bio-Tech), M.Sc. (Microbiology & Immunology), MCA, MBA, M.Tech. in CE, CSE, ECE, EE, ES, ME, M.Pharm (Pharmacology, pharmaceutics) and Ph.D.

#### **ABOUT THE DEPARTMENT**

Department of Biotechnology was established in 2007 with an objective to impart quality education in the field of biotechnology; department has been equipped with state-of-art laboratory infrastructure to carry out research in Molecular Biology, Immunology, RDT and Animal cell culture etc.

At present department is running 3 years undergraduate program B.Sc. (Hons.) in Biotechnology, and two years postgraduate programs in M.Sc. Biotechnology, and M.Sc. Microbiology & Immunology along with doctoral research in selected areas of life sciences. To facilitate research in specialized areas department have signed MoUs with National institutes of excellence such as JALMA, BHU, CIRG, IARI, etc. Future endeavors of the department includes setting up of a dedicated facility for Omics Data Analysis keeping in mind the impact of high-throughput data sciences in future biotechnological activities.

#### Objective of the Guest Lecture

- When biosafety for contained use is addressed in international fora and discussions, often the topic is limited to working with genetically modified organisms (GMOs) in facilities such as laboratories, animal facilities, and greenhouses.
- However, the scope of biosafety in containment encompasses many other types of biological materials, such as human, animal and plant pathogens, nucleic acids, proteins, human samples, animals or plants, or by-products thereof, and overlaps often with the topic of biosecurity.

Date : 23rd of April 2018

Organized by : Department of Biotechnology

Faculty Coordinator : Dr. Shoorvir Singh

Participants : Faculties and Students of Department of

Biotechnology

#### Objective of the Guest Lecture

 There was a discussion Male infertility which is any health issue in a man that lowers the chances of his female partner getting pregnant. About 13 out of 100 couples can't get pregnant with unprotected sex.

There are many causes for infertility in men and women. In over a third of infertility cases, the problem is with the man. This is most often due to problems with his sperm production or with sperm delivery.

He discussed that male infertility is more common in environments with high levels of
environmental pollution, including water contaminants, pesticides and herbicides.
 Some recent population studies have suggested that sperm counts have been
declining universally even though infertility has not been increasing substantially.

### Report

Title: Report on Two days seminar on New Trends in physics II

#### Objectives:

The seminar is organized in the department of physics held on 03<sup>rd</sup> 4<sup>th</sup> February, 2018 by Prof. G. S. Raghuvanshi, Rajasthan Technical University. The main outline of the talk emphasized on journey of quantum mechanics to quantum field theory. The speaker started his talk by introducing the basic structure of classical and quantum mechanics. Prof. G. S. Raghvanshi has discussed evolution of quantum filed theory and its modern applications.

Speaker and Resource Person: Prof. G. S. Raghuvanshi, Rajasthan Technical University, Kota

Venue: Room No 123 AB-7

Or ganized By: Department of Physics, GLA University, Mathura

Faculty Coordinator: Prof. BRK Gupta, GLA University, Mathura

#### Outcome:

All the participants gained the knowledge pertaining to advancements in quantum mechanics. They were able to understand the real world problems related to the quantum mechanics as well as quantum field theory.

#### Summary:

A two days Conference on New Trends in Physics-II was organized on 03 Feb, 2018 – 04 Feb, 2018. A total of 7 participants had joined the session and certificates were given to them. This conference has also been attended by the B.Tech students. Session was inaugurated by Prof B. R. K. Gupta, Department of Physics, GLA University, Mathura. A very fruitful discussion between the participants and speaker happened during the one hour question and answer session.

- 5. Support Vector Machine
- Feature Selection and
   its implementation using MatLab
- 7. Research Methods in Information Processing
- Blockchain: The information of the future.

#### INTRODUCTION

This two days workshop is intended to bring together experts from academia and industry to share advances in the development of Information Processing principles, with emphasis on large-scale systems. It introduces fundamental concepts and research methods in Information processing. It comprises of a series of lectures and practical exercises. The participants will obtain deep insights of Information processing and machine learning for various applications, which in turn helps them to apply it in practice or as a foundation to a deeper study in this area such as Bio-metrics etc.

#### Report of the Workshop

Name of the Workshop : IEEE National Workshop on Advances in Information

Processing

Date and Duration : April 7-8, 2018

#### Name and Profile of Resource Person:

Prof. R.K. Agrawal is Dean School of Computer Systems & Sciences, JNU New Delhi. He has more than 25 years of experience of academia. He has expertise in Data Mining, Pattern Recognition and Security

Prof M. M. Sufyan Beg is Principal, Z. H. College of Engg. & Tech, Aligarh Muslim University, Aligarh. Prof. Beg has more than 30 year of rich academic experience of India and abroad. Prof. Beg has published 16 book chapters and over 115 papers on a wide range of topics in Web Mining and Soft Computing. He has also been an invited lecturer at many places in U.S.A., U.K., K.S.A., Pakistan and India. His current research interests are in the areas of Parallel and Distributed Processing, Soft Computing, Question Answering Systems, Natural Language Processing, Web Mining and Searching.

Dr. Karan Verma is Assistant Professor and Assistant Registrar (Academic) (I/C) in NIT Delhi. He received his BE Information Technology from Govt. College Rajasthan in 2008, M. Tech in

Computer Science and Engineering from IIT Roorkee in 2010 and Ph.D in Information Technology from University Teknologi PETRONAS, Malaysia in 2015, respectively.

#### **SUMMARY**

# One Day Workshop on Intellectual Property Rights and Patenting

**Event Title:** One day workshop on how to file a patent

Speaker/Resource Person: Prof Ali Mohammad, AMU Aligarh

**Date:** 26<sup>th</sup> April, 2018

Venue: Room No. 211, Academic Block VII

**Organized by:** Department of Chemistry

Faculty Coordinator(s): Dr. Prabal Pratap Singh

**Participation:** Faculty of IAH (18 participants)

**No. of Participants:** Department of Chemistry GLA University: All the faculty members, Ph.D. students, P.G. Students and UG Students (approx. 18 participants)

#### **About the Speaker/Resource Person:**

Prof. Ali Mohammad is professor in Institute of applied science, AMU, Aligarh. He produced more than 20 Ph.D. in Chemistry. He published more than 150 research paper in reputed journals.

**Highlights of Event:** Prof. Ali Mohammad very well explained about the steps involved in the process of filing of patent to its stage of awards and rights/challenges of the inventors afterwards. He explained about the need and requirement of a work to get patentable, technical aspects document writing. He also gave an insight of copy right and patent, domain of patent its validity and protection of patent from infringements.

#### **Objective of the Workshop:**

- 1. To find out Intellectual Property challenges in the field of Sciences
- 2. To discuss the law relating to patent and copyright
- 3. To discuss the importance and need of Intellectual Property and Sustainable Development.
- 4. To discuss the step wise procedural of patent from filing to its grating.

# Report on; An Introductory Course on Intellectual Property Right

Event title: An Introductory Course on Intellectual Property Right

Speaker/resource person: Miss Namrata Chandha

Date: 22 February 2018

Venue: Academic Block IV, IPR, GLA University

Organized by: Institute of Pharmaceutical Research

Faculty coordinator(s):Dr. Debapriya Garbadu

Participation: Faculty of Institute of Pharmaceutical Research

### Objective of workshop:

- To create public awareness about the benefits of Intellectual property among all sections of society.
- To encourage innovation and provide incentives for innovation by granting temporary protection to inventors.
- To discuss the issues of lack of capabilities in innovation space.
- To discuss the emerging opportunities related to Intellectual property

About the Workshop

dedical writing involves writing scientific documents of thefferent typer which we lone equitatory and transmither dated documents, doesned or drug-related document and promotional landary, publication or exceet fixe points ensured they and alternate restriction or these documents needs to be presented to just the level of understanding or the using authorities, namely, patients or general public, physicians or the regulators. Needs all orders require an understanding of the medical concepts and farmanology, knowledge of relevant guidelines as regards the structure and contains of specific documents, and good writing patients are repair to the templators. They also need to be farminar with southing medical literature, understanding and persenting retearch data, the document review process, and colong and publishing are quie ements. Many resources are now available for medical writers to get the required training in the science and art of medical writing, and upgrade their innovincing on an ongoing basis. The demand for medical writing is growing steady in pharmac cut-cil and heathfour economicalism market. Medical writers can work independently or be employed as full time professionals. Life sciences graduates can consider medical writing as a walsable curver option.

GLA UNIVERSITY, MATHURA

From April. 13 to 17, 2018

#### **VENUE**

GLA University, 17 Km. Stone, Mathura - Delhi National Highway (NH-2), PO.- Chaumuhan, Mathura (U.P.), 281406, India.

The pious city of Mathura is the epicentor of Braj Bhoomi and is well known worldwide as the birth place of the Karma Yogi, Lord Krishna. It is well connected to varius parts of country by Rail and Road.

#### **ABOUT THE UNIVERSITY**

GLA University is a NAAC 'A' accredited university. It started in 1998 as GLA Institute of Technology and Management. It went on to take the shape of GLA group of Institutions and finally became GLA University in the year 2010. The University is spread over 110 acres of lush green campus. The University has more than 10,000 students in its various courses at the diploma, undergraduate, post graduate and doctoral level in the disciplines of science, technology, management and pharmacy. More than 650 experienced faculty members and 800 staff members are devoted for the growth of the University.

#### ABOUT THE DEPARTMENT

The Department of Mathematics came into existence in the year 2010. The department has 20 qualified and experienced faculty members with specialization in various fields of Mathematics. The department is conducting Ph.D. programmes in the fields like Operations research, General relativity & cosmology, Differential equations, Fluid dynamics, Fuzzy mathematics and Advanced complex analysis.

#### **ABOUT THE WORKSHOP**

The "National Workshop on MAPLE" is a platform for learning a mathematics-based computer software MAPLE. The aim of the workshop is to introduce the MAPLE and its basic applications to the participants. After attending the workshop, one may be able to use the MAPLE in solving a variety of mathematical problems of education, engineering and research.

#### **ABOUT MAPLE**

MAPLE is a Mathematics-based computer software for education, engineering and research. Maple is a math software that combines the world's most powerful math engine with an interface that makes it extremely easy to analyse, explore, visualize, and solve mathematical problems, making it the ideal tool for both education and research. Maple has over 5000 functions covering virtually every area of mathematics, including calculus, algebra, differential equations, statistics, linear algebra, geometry, and much more. Here are just a few of the many areas of mathematics, MAPLE can handle:

- o Differential Calculus
- o Differential Equations
- o Numerical Techniques
- o Statistics and Data analysis
- o Linear Algebra
- o Optimization
- o 2D, 3D Graph plotting o General Relativity and Tensors
- o Curve Fitting
- o Discrete Mathematics
- o Signal Processing.

#### WHO CAN PARTICIPATE

The workshop is open to all Research Scholars/Faculty Members/ Scientists/ Engineers working in Industries/ Educational Institutions/ R&D organizations.

#### **HOW TO APPLY**

Applicants can apply through the link provided at GLA University website www.gla.ac.in or can send filled in registration form, attached with the advertisement by e.mail at nwm18\_glau@gla.ac.in .

### Report

### Five Day Workshop on MAPLE

The Department of Mathematics has organized "Five Day Workshop on MAPLE" on Sept 13-17, 2018. This workshop was moderated by Dr. Rashid Zia and Umesh Sharma, Assistant Professor, Department of Mathematics.

In this workshop our resource person is Prof. Sushant Ghosh, CTP, JMI University, New Delhi. Prof. Sushant Ghosh is also Visiting Associate, Inter University Centre for Astronomy and Astrophysics (IUCAA), Pune (Since July 2001). Honorary Professor, College of Agriculture and Engineering, School of Mathematics, Statistics and Computer Science, UKZN from 2013-2016. His Research interests in Gravitational collapse, Spinning black holes, Exact solutions, Causal structure of singularities, Relativistic stars, Modified theories, General relativity, Black hole theory.

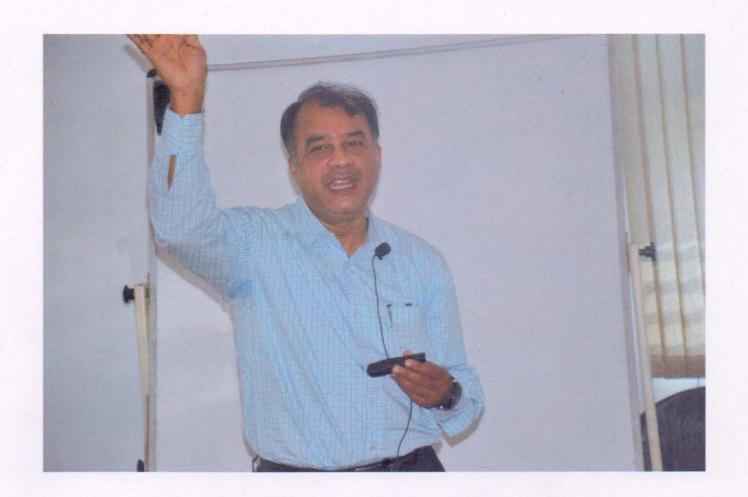

The coordinator briefed the theme of this workshop on MAPLE.MAPLE is math software that combines the world's most powerful math engine with an interface that makes it extremely easy to analyze, explore, visualize, and solve mathematical problems. The Associate Head of the department, Prof. ManishGoyal welcomed the guest and all the participants. Prof. Anirudh Pradhan, Dean(R&D) introduced our eminent resource person. Our Recourse person enlightened the participants and faculty members. Total 65participants attended the workshop. The goal of this workshop is to render the basic knowledge of MAPLE with its applications. At last, the coordinator gave a note of thanks to the resource person and all the participants. The workshop ended on a happy note.

### One Day Workshop on Canharmonic Transformation

The Department of Mathematics has organized "One Day Workshop on Canharmonic Transformation" on Jan 27, 2018. This workshop was moderated by Dr. Ambuj Mishra, Assistant Professor, Department of Mathematics.

In this workshop our resource person is Prof. Zafar Ahsan, Department pf Mathematics, Aligarh Muslim University, Aligarh. Prof. Ahsan is Editor-in-Chief of Aligarh Bull.Maths (2012-2015) and J.Tensor Soc. of India (2010-2012), Managing Editor of Alig. Bull. Maths (1998-2012); Editor of Palestine J.Maths and J.Interpolation and Approx.in Scientific computing. Member of Editorial Boards of Global J. of Adv.Res. on Classical and Mod. Geom., International e-J. of Num. Anal. and related topics, Taif J.Maths.Stats., Islamic University of Gaza J. Natural and Engg Studies, J. of Tensor Soc., J. and Bull. Calcutta Math Soc. Prof. Ahsan has been a Council Member of Indian Association for General Relativity and Gravitation (2002-2006); a Visiting Associate of IUCAA, Pune (July 1996-June 2005); a UGC Visiting Professor of Sardar Patel University, Vallabh Vidyanagar (April 2004-May 2005). He is also members of Indian Ass. for Gen.Relat.Gravit., Calcutta Math.Society, Indian Soc.Industrial and App.Maths, Indian Math Soc. and Tensor Soc.India; a founder member of Int.Electronic Engg Math Soc (Egypt). He has so far published 96 research papers in national and int.journals. He has written 05 Lecture "Astronomy, Relativity Theory, Mechanics, Mathematical Methods, The Tetrad Formalism"; and has published 05 books entitled "Differential Equations and Their Applications, Vector Analysis, Mathematical Methods, Tensor Analysis with Applications and "Tensors: Mathematics of Differential Geometry and Relativity" (2015). His book on Diff.Eqs (2nd Ed, 2004, 14th reprint, July 2013) is a best seller since 1999. Prof. Zafar Ahsan has visited Pakistan, Italy, Bangladesh, Libya, Iran, Japan, Russia and Malaysia to deliver invited talks at int. conf. He has also been delivering lectures at a number of refresher courses on maths as well as popular lectures on maths at AMU and other Indian univ. His current research interest, apart from General Relativity and Gravitation, is on Qur'an, Cosmology and Modern Science; and he has delivered public lectures on this topics at a number of places in India and abroad.

The coordinator briefed the theme of this workshop on Canharmonic Transformation. The Associate Head of the department, Prof. ManishGoyal

welcomed the guest and all the participants. Prof. Anirudh Pradhan, Dean (R&D) introduced our eminent resource person. Our Recourse person enlightened the participants and faculty members on Canharmonic Transformation. Total 28 participants attended the workshop. The goal of this workshop is to render the basic knowledge of Canharmonic Transformation with its applications. At last, the coordinator gave a note of thanks to the resource person and all the participants. The workshop ended on a happy note.

Outcome of Event:

Entrepreneurship is the process of designing, launching and running a new business, which is

more often than not, initially a small business, offering a product, process or service for sale or

hire. The people who create these businesses are called entrepreneurs. Entrepreneurship has been

described as the "capacity and willingness to develop, organize and manage a business venture

along with any of its risks in order to make a profit

The Workshop is designed to cater the needs of faculty members, graduate, post graduate students and research scholars for Matlab and Minitab software.

MATLAB- MINITAB tools. Core concentration of the workshop is application of these tools in mechanical or Engineering Problem solving, Applications related to most recent topics with hardware interfacing. Data collection and proper presentation of data for analysis with the help of Minitab, which is helpful for preparation and presentation of research paper, it is also useful for simulation and modeling of any process or system parameters. The ultimate aim is to replace manual labour and increase efficiency, speed, and overall performance. Students are come to know about the application of MATLAB, and MINITAB. They have understood the functionality of MINITAB to optimize the process parameters.

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this, it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim of industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices. Through industrial visit students get awareness about new technologies. Technology development is a main factor, about which a student should have a good knowledge. Visiting different companies actually help students to build a good relationship with those companies. We know building relationship with companies always help to gain a good job in future. After visiting an industry student can gain a combined knowledge about both theory and practice. Students will be more concerned about getting a job after undertaking an industrial visit.
