Organizing Chairman, GATE 2018
(on behalf of NCB - GATE, for MHRD)

The GATE 2018 score is calculated using the formula

$$GATE\ Score = S_q + (S_c - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_c = 900$, is the score assigned to \bar{M}_t

In the GATE 2018 score formula, M_q is 25 marks (out of 100) or $p + \sigma$, whichever is greater. Here p is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

(on behalf of NCB - GATE, for MHRD)

The GATE 2018 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper mentioned on the GATE 2018 scorecard

M_q is the qualifying marks for general category candidates in the paper

M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$ is the score assigned to M_q

$S_t = 900$ is the score assigned to M_t

In the GATE 2018 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/stipendship. Admitting institutes may conduct further tests and interviews for final selection.

The GATE 2018 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2018 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Organizing Chairman, GATE 2018
(on behalf of NCB - GATE, for MHRD)

The GATE 2018 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2018 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

1. Only candidates who have appeared in XAT 2018 are entitled to receive the Score Card.
2. For 'Quantitative Ability', 'Verbal and Logical Ability' and "Decision Making" the 'Percentile' represent candidate's relative performance position in the total population of candidates in the particular section. For Total the "PERCENTILE" indicates the candidate's relative performance position in the total population of candidates. General Knowledge percentage and percentile are calculated independently and are not included in the calculation of "Total" percentage or percentile.
3. Performance in XAT is one of several criteria used to judge the suitability of a candidate for admission to XLRI or any of the other XAT Member Institutes. Each Institute independently decides how to use XAT Scores on the basis of its own policies.
4. It is recommended that XAT Scores be used by institutions only for selecting candidates to their Post Graduate / Fellow Programme(s) in Management.
5. A Duplicate Score Card may be issued on payment of ₹ 300/- by demand draft, drawn in favour of XLRI Jamshedpur, payable at Jamshedpur.

Management Aptitude Test and Test Scores

- 1 The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.
- 2 MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- 3 All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.
- 4 The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.
- 5 The percentile below column indicates the percentage of candidates in the test who scores below that of the candidate in the section.
- 6 The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 199 to 801.
- 7 The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.
- 8 All scores and percentile below figures are reported after rounding off to the nearest whole number.
- 9 Personal data is as reported by the candidate.

Management Aptitude Test and Test Scores

- The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.
- MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.
- The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.
- The percentile below column indicates the percentage of candidates in the test who scores below that of the candidate in the section.
- The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 199 to 801.
- The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.
- All scores and percentile below figures are reported after rounding off to the nearest whole number.
- Personal data is as reported by the candidate.

Note -

- I. This electronically generated score card is the official result declared by AICTE and does not require any signatures. Separate Score Cards will not be sent by email or by post to the candidates. The validation of the score can be done at <http://www.aicte-gpat.in> which also provides an all India merit list indicating Roll number, Rank and the Score of all the candidates.
- II. The Scores obtained have been calculated by assigning:
+4 Marks for the correct answer
-1 Mark for incorrect answer
0 Mark for no answer
- III. A National Merit Ranking (All India Rank) has been arrived based on the Score secured against Total Score.
- IV. In case more than one candidate has secured same score then the same Rank has been assigned to all of them but have been displayed by sorting their names alphabetically and/or date of birth in the merit list. The Rank of the subsequent candidate has been shifted by the number of additional candidates having the same Rank.
- V. The admission authorities are recommended to use score awarded to the students for allotment of seat in the AICTE approved programs along with other criteria that may exist, as applicable.
- VI. Instances of incorrect information provided by the candidates, if detected at any stage, would make the candidate liable for disqualification.
- VII. The responsibility of verifying the category of the candidate for ascertaining eligibility of admission and award of scholarship if any, lies with the admitting institute.
- VIII. Qualifying in GPAT 2018 neither guarantees any automatic entitlement for admission to PG Programme nor AICTE assistance under PG grant.
- IX. Any dispute concerning GPAT 2018 would be subject to Jurisdiction of the competent courts within the territorial jurisdiction of New Delhi only.
