

### **Financial Markets Research Centre (the Finance Lab).**

The mission of the Finance Lab is to support advanced applied research in financial markets and equip finance managers with the mathematical and conceptual theories and best practices in financial markets that go into the creation and management of innovative financial products. The Lab is equipped with software, which provides access to real time national and international financial data, market information, business news, and cutting-edge financial analysis tools. We at GLA to have access to NSE and BSE terminals. Apart from this, the Lab is also equipped with a trading exchange simulator with real time data feed from five markets - NSE- Cash and F&O, BSE- Cash, NCDEX and MCX.

This lab is created under the MoU with St. Thomas University, Minnesota USA and various activities are held under this LAB for students and researchers. We have the following projects have facilitated under this lab

- A. Indian Corporate Bond Yield Spreads, Credit Rating and Its Determinants:** Project takes a comprehensive look at the credit spreads and credit rating characteristics of Indian corporate bond market. The data covers the time period from 2010 to 2019 and includes 6393 individual bonds. Results indicate a significant inverse relationship between the credit rating and yield spreads. Other factors that contribute to lower yield spreads are public listing status of the firm, private placement, and majority ownership by government. Relationship between credit rating and coverage and profitability ratios are positive. Higher debt ratios resulted in lower rating, but there is indication that this effect is sensitive to the time period when the bond is rated.
- B. Derivative Trading Strategy Formulation:** Under the finance research lab we have developed the derivative trading strategies which include:
- **Married put strategy:** In a married put strategy, an investor who purchases (or currently owns) a particular asset (such as shares), simultaneously purchases a put option for an equivalent number of shares. Investors will use this strategy when they are bullish on the asset's price and wish to protect themselves against

potential short-term losses. This strategy essentially functions like an insurance policy, and establishes a floor should the asset's price plunge dramatically.

- **Bull call spread strategy:** In a bull call spread, you buy a call on the underlying asset while simultaneously writing (selling) a call on the same underlying asset with the same expiration month at a higher strike price. You should use it when you think the market will go up somewhat, or think it's more likely to rise than fall (in other words, you have a bullish or moderately bullish outlook). Your likelihood for profit is limited, as is your risk, because the price paid for the call with the lower strike price is partially offset by the premium received from writing the call with a higher strike price, so you have less risk of losing the entire premium paid for the call.
- **Bear put spread strategy:** In a bear put spread, you buy a put on an underlying asset while writing a put on the same underlying asset with the same expiration month, but at a lower strike price. You should use this strategy when you think the market will fall somewhat or is more likely to fall than rise, as you're capitalizing on a decrease in the price of the underlying asset.
- **Butterfly spread strategy:** In a butterfly spread options strategy, an investor will combine both a bull spread strategy and a bear spread strategy, and use three different strike prices. For example, one type of butterfly spread involves purchasing one call (put) option at the lowest (highest) strike price, while selling two call (put) options at a higher (lower) strike price, and then one last call (put) option at an even higher (lower) strike price.

These strategies were successfully got tested for Indian markets.

Under the MoU we have also organized following activities through finance research center:

- **Webinar on Covid 19- Challenges & Strategies of Capital Market:** New strategies and method suggested in the discussion to cope up with the Covid 19 pandemic.
- **Online Guest Lecture on Derivatives and Financial Market:** Students learn about the Derivatives and Financial Market.

- News Letter Publication- Global Capital Markets: This bulletin is compiled & circulated by Financial Markets Research Centre, Institute of Business Management, Mathura
- First Annual Emerging Financial Markets and Policy Conference: Paper Presented Title: Challenges and Opportunities Facing Emerging Financial Markets
- Workshop on Essentials of a Quality Research Paper: Prof. Thadavillil has explained briefly about the Essentials of A Quality research paper, its benefits and why do we have to do research and publish? The guest lecture is more beneficial for faculty, PhD students, PG students.

## **MVA –LSCM : An Overview**

The Institute of Business Management cultivates a highly-interactive, student-centric and conducive to learning environment that is embedded with state of art the instructional methodologies and the development of leadership and life- long learning skills in its students. Students are provided with a strong academic foundation in business, and are prepared to become global citizens who are productive, competent, environmental conscious, ethical professionals with social responsibility. The Institute of Business Management, GLA University got IACBE accreditation in the year 2020.

**Institute of Business Management** MBA in Logistic and supply chain management With the collaboration of Safeducate Pvt ltd etc. MBA-Logistics and supply chain management program aims at delivering the required domain knowledge through a unified form of classroom mentoring and practical training. The aim of the program is to prepare the students to be industry ready. During the program students shall undergo an industry oriented internship giving them an overview of the industry (Supply chain & logistics), processes (Warehousing, Transportation, Packaging, Scanning, Cross-docking, Inventory management, Material Handling, Transshipment, and Documentation etc.) and verticals (3PL, VMI, Retail, E-Commerce, and Manufacturing etc.). This program is being run in collaboration with the well-known industry partner Safeducate, a specialist in Supply Chain and Logistics training, in order to develop real time SCM expertise supported by academic excellence of institute of business management, GLA University.

## **Master in Business Administration (Industry linked program in Logistics and Supply Chain Management)**

### **Safeducate – An Overview**

A leading social enterprise, Safeducate Learning, spearheaded by Divya Jain was launched in 2007 by Safexpress Pvt.Ltd, is working towards skill development, employment, and livelihood creation for underprivileged sections of the society. Being the largest logistics training organization in India, it specializes in the avenues of Supply Chain Management & Logistics, Retail, Manufacturing, and Automotive.

Safeducate has been excelling in its mission to offer expert-led training for Supply Chain Management & Logistics, Retail, Manufacturing, and Automotive. By transforming the lives of over 50,000 boys and girls each year through its various vocational and professional certification courses & programs. The organization has over 150 training centers at strategic locations in India.

By using the latest technology, innovative tools, and a rich pool of experienced, qualified & certified trainers, and subject matter experts, Safeducate displays a unique ability to develop &

transform the lives of its different types of learners through highly focused & industry-relevant courses, programs and workshops.

Safeduate believes in the philosophy of cooperation and collaboration for better contribution and service. As a result, the company has been able to forge strategic & knowledge partnerships with various esteemed organizations & agencies like National Skill Development Corporation (NSDC), Logistics Sector Skill Council (LSC), Indian Institute of Management (IIM Kashipur), Retailers Association's Skill Council of India (RASCI), Automotive Skill Development Council (ASDC), National Association of Software and Services Companies (NASSCOM), and many more.

### **GLA University – Safeduate Partnership for Industry Oriented master's in Business Administration (MBA) with specialization in Logistics and Supply Chain Management**

Safeduate has created an industry-oriented curriculum in association with GLA University to enable the students to develop the right competencies and address the challenges concerning the logistics and supply chain industry. The best part of this engagement is when both the Academia and the Industry is brought together to identify, train and certify the future talent based on the current trends & practices in the domain. GLA University and Safeduate have jointly developed and launched a one-of-a-kind full-time industry-oriented MBA program with a specialization in supply chain and logistics.

Curriculum design and Content development:

Outcome-based courses & programs are designed by highly experienced Instructional Designers & Subject Matter Experts based on primary & secondary research on stated/explored training needs. Great care is given to maintain the 30:70 rule (30% theoretical in nature and 70% practical in nature).

As the industry partner, Safeduate provides the learners with the opportunities to access industrial environments for applied and problem-based learning. Safeduate plans, designs and organizes internship and on-the-job training for all the eligible students at the end of the classroom training.

Key Highlights of this Partnership:

- Industry experienced Subject Matter Experts as Faculty
- Constant connect with the Industry allows better content alignment, expectations alignment, and placement opportunities
- Mandatory on-the-job practical training in the 6<sup>th</sup> trimester leading to an in-depth understanding of actual & latest operations
- Practical training & summer Internship opportunities with the leading companies for better exposure
- Constant engagement activities with the Industry through seminars, conference invitations, and sessions by practicing managers
- Unlimited access to the latest cases & content for better learning and exposure

Program Features

- Over 106 course credits
- Weekend Webinars/Events by industry experts
- Live virtual and in-person industry visits

- Regular Industry Guest Lectures
- Summer internship
- On-the-job Training
- Placement Preparation sessions
- Mock interview sessions
- Placement Assistance
- Additional certifications to develop competencies of the students

#### Program Pedagogy

- Classroom Lecture
- Caselet & Case Study Discussion
- Video-based discussion
- Unit-end Student Activity/Presentation
- Unit-end Assignment
- Course Handout - Session details | Recommended Book & Web readings

#### Trimester-Wise Industry Orientated Learning Intervention:

##### Trimester 1

Industry orientation and workshop

Industry visit

Guest speaker sessions

##### Trimester 2

Industry visit

Guest speaker sessions

##### Trimester 3

Guest speaker sessions

Industry workshop

##### Trimester 4

Through: HOD (PG Programs), IBM

Sir,

**Subject: Financial Markets Research Center – Online display of stock markets trade and Virtual Trading software development.**

At IBM (PG Programs), we have the following programs where online display of equity stocks, market information and other data analysis is required apart from the virtual trading exposure to students in the programs.

1. MBA- Financial Markets & Banking
2. Post Graduate Program in Securities markets
3. Financial Markets Research Center scholars

Apart from the above stream students, the MBA students specializing in finance area will also require and get benefit of the above facilities. For making the above services available and activated, we require the services of API and software development IT Company.

In the context of stock market operations, an **API** refers to the interface that enables software to connect with a broker to obtain real-time pricing data or place trades along with market information and other data analysis. API is the main entity connecting with stock exchanges to get this information directly and then distribute to the clients/users. For providing this facility, they charge the following costs.

- a) **API Data Distribution Fee**
- b) **License Fee to Stock Exchanges for obtaining license**

We have made thorough research on different types of APIs as there are number of APIs who are engaged in these services. The cost of API data differs in terms of the kind of data and frequency of data required and other services and market analysis needed. The cost runs as high as Rs.25 lac per annum and as low as Rs.1 lac.

Recd  
19/7/19

44

44

Keeping in view our minimum requirements to start with the online stock market trade display and basic market analysis, we have finalized the CMOTS Infotech, a Mumbai based company. This company will provide the following data to us.

- a) 5 Min delayed Price feeds with % change, open, high, low and previous day
- b) closure of BSE Listed companies and BSE indices
- c) 15 Min delayed Price feeds with % change, open, high, low and previous day closure of NSE Listed companies and NSE indices
- d) Top Gainers / Losers
- e) Most Active Stock
- f) Advance and Decline
- g) 1 year Historical adjusted

**The following will be the cost for providing the above data.**

- i) Web Contents (API as XML or JSON)- Rs 1,85,000/-
- ii) NSE charges - Rs 60000/-

This is the annual cost which will have to be paid every year on renewal of the contract. The above cost will also include additionally GST as applicable

**The following are some of the clients of C-MOTS**

- SMC Trade:- <https://www.smctradeonline.com>
- IDBI Direct :- <https://www.idbidirect.in/>
- IDBI Mutual Fund - <https://www.idbimutual.co.in/>
- Motilal Oswal:- <http://www.motilaloswal.com>
- Aditya Birla Money:- [www.adityabirlamoney.com](http://www.adityabirlamoney.com)
- HDFC Securities:- [www.hdfcsec.com](http://www.hdfcsec.com)
- Edelweiss:- <http://www.edelweiss.in/>
- India Infoline:- <http://www.indiainfoline.com>
- Geojit PNB Paribas:- <http://geojit.com/>
- Geojit comtrade:- <http://www.geofin.co.in/>
- Axis Direct:- <https://simplehai.axisdirect.in>

From the above, it is observed that CMOTS has good clients base. Therefore, we may avail the services of the CMOTS for API data. The license from NSE will be in the name of GLA University. The details received from CMOTS are attached.

For running the data available from API on the screen, a software has to be developed by an IT company to display the data as per our requirements. **It will be one time cost.**

In addition to the online display system of stock markets, we are also required to prepare software for Virtual Trading which will be attached to the API data. **This will also be a one-time cost.**

2/4

for

For software development for the above two services, we have visited personally to explain the requirements and finally the following companies agreed to provide the software development services. We have received quotations and other detailed information about the whole process from the three companies from Noida, Ghaziabad and Bangaluru. The following table presents the cost and other details of all the 3 companies.

### Comparative Table of Quotations

Name of the Company	TRIAZINE, Noida	Spearhead Solutions, Ghaziabad	Soft OMGTech, Technologies, Bangaluru
Certification of the company	CMMi Level 3	No	CMMi
Time for completion of the Project	20 weeks	Not mentioned	10 weeks
Virtual Trading Software Cost	5,00,000 ✓	5,75,000	5,85,000
Stock Market Display software cost	1,30,000	1,85,000	1,50,000
Annual Maintenance cost	NIL Support 30 days after final operation	NIL Support 15 days after final installation	2,35,200
Total Cost	6,30,000 ✓	7,60,000	7,35,000 ✓
Project Advance	50% ✓	15 days of Invoice	60 % Advance

The details of costs and other processes received from the 3 companies are attached. Keeping in view the cost aspects, time period, process, free support services, easy access etc., we may finalize TRIAZINE, CMMi Level 3 company whose cost is also the lowest and company is CMMi Level 3.

*[Signature]*

## Summary

1. We may have to pay Rs.2,45,00 plus GST to C-MOTS, API for providing data and obtaining license from NSE immediately.
2. We may also have to pay one-time cost of Rs.1,30,000 plus GST for Software development for API data display on the screen immediately.
3. The one-time cost payable for developing Virtual Trading is Rs. 5 lac. Of this, Rs.1,50,000 (30% of the total cost) will be paid in advance and remaining 70% can be paid after 20 to 25 weeks when the software is fully developed and become operational.
4. Therefore, the immediate payment in the whole process will be Rs.3,75,000 plus GST to both the companies and Rs.1,50,000 as advance for developing Virtual Trading software.
5. Rs.6,30,000 is the one-time cost for software development.
6. Rs. 2.45,000 will be the annual cost.
7. The total cost of the full project will be Rs.8,75,000 of which Rs.6,30,000 is one-time only.

Submitted for your kind perusal and permission to go ahead on the above suggested lines.

## Terms & Conditions

1. In case of raw data (Web services – API) all data will be served from CMOTS HTTP server. Data can be provided either as JSON or XML
2. 1 year historical data will be made available through API company wise.
3. This quotation is applicable on per client basis for the subscribed data and API's relevant for the same. If there are changes in the requirements or scope of this project, or changes or additions during the project term in api's, C-MOTS Internet Technologies Pvt Ltd. reserves the right to create an additional proposal per customer's additions, and acceptance, and bill for the additional services.

### Payment Policy:

4. Payment to be made in favour of CMOTS Internet Technologies Pvt. Ltd. by cheque /draft drawn on Mumbai. The content contract should be for a period of minimum 2 years. The terms/price in this quotation is subject to revision, if any regulatory body / exchanges imposes any new changes/conditions. If such price revisions or terms are not acceptable to any party then this Agreement can be terminated by thirty (30) days notice from the date of receipt of intimation of revised terms / pricing. However the cost of the contents is Annual basis. Subscription fee is not refundable.  
First Invoice would be raised along with the proposal. 100% of the total proposed costs are due with proposal acceptance. Subsequently, for the succeeding years, invoice will be raised thirty (30) days in advance from the period for which invoice is being raised.  
If the Invoice is not paid before due date, a penalty of 1% on the total amount of invoice shall be levied and total invoice amount (i.e. original invoice amount + 1% penalty) shall have to be paid within next thirty (30) days. If the same is not paid, the web services shall be discontinued with prior notice of fifteen (15) days.
5. **Taxes as applicable will be extra.**
6. You will not charge for viewing of the data, nor resell the data in any electronic format save and except for making the data directly available on the website or platform as agreed . This doesn't preclude hard copy or electronic outputs generated from our data for presentation to clients.
7. CMOTS Internet Technologies Pvt. Ltd. has obtained rights for re-distribution of the subscribed data from the respective owners of such data, creators or copyright holders thereof and is any claim arise prior to execution of Data Subscription Agreement(DSA) CMOTS Internet Technologies Pvt. Ltd. will indemnify Client to this effect.
8. **This quotation is subject to revision, if any of the Exchange [BSE/NSE/ MCX/NCDEX/MSEI] terms & conditions are revised.**
9. **Either party may terminate this Agreement by giving one month's notice in writing to the other Party, starting Second Year. The client cannot discontinue in between the tenure of subscription for one full year as the contract is on annual basis.**
10. Resale of subscribed data in any form whatsoever ( like selling end of day database/ intra day prices etc.) is not permitted .the subscribed data to be restricted only to website or platform as agreed and not to any other means/media
11. If bandwidth usage of the site exceeds 1.5 MBPS, additional bandwidth charges at prevailing rates will be charged at Rs.30000/- per mbps , per annum for data served through API's
12. Source statement reading "Content powered by CMOTS Internet Technologies Pvt. Ltd. " should be mentioned in all places/platforms wherein the data is being used.
13. Price feeds shall not be used by the subscriber for trading or settling derivatives in any form in a foreign jurisdiction. Subscribers are not permitted to use market data for trading of overseas derivatives instruments and / or structured products on exchange traded derivative contracts on Indian securities traded on foreign exchanges and/ or trading platforms. This is not applicable for (a) Products/indices traded on any exchange or trading venue in any International Financial Services Centre (IFSC) operating in India, subject to prior written permission of Exhcange –BSE,NSE,MCX,NCDEX,MSEI (b) Issuance of any Exchange Traded Funds / Exchange Traded Notes or similar products by any entity, subject to prior written permission of Exchange - BSE,NSE,MCX,NCDEX,MSEI.
14. If Total Return Index closing values of Nifty indices is subscribed to from CMOTS , the values should be used only for calculating benchmark performance and displaying the same. It should not be used to display index values as is on any platform. For display of the same, prior approval from IISL- NSEIL should be taken by the client with a proper agreement in place.
15. Customer agrees to pay reasonable attorney fees and any other reasonable fees required to enforce all terms and conditions of this contract. In addition, Customer agrees to reimburse CMOTS Internet Technologies Pvt. Ltd. any amounts made on behalf of collecting on delinquent payments or required to enforce the payment terms of this contract. Customer acknowledges and agrees that CMOTS Internet

- Technologies Pvt Ltd. can suspend, hold up publication or remove published web pages if CMOTS Internet Technologies Pvt Ltd. has not received all fees relating to the payment of services rendered.
16. Customer grants CMOTS Internet Technologies Pvt Ltd. the right to reference their company and web site as a client. Customer also guarantees CMOTS Internet Technologies Pvt Ltd. limited rights of copyright necessary to reproduce and display Customer's web pages electronically via the World Wide Web or as demonstrations and examples of our design and work.
  17. CMOTS Internet Technologies Pvt Ltd. is not liable for any errors or interruption in service, whether within or outside of CMOTS Internet Technologies Pvt Ltd.'s reasonable control. ISP Service provided may be temporarily unavailable for scheduled maintenance, or because of other causes.
  18. In the event of any dispute, negotiations and/or legal action will have to be in the city of Mumbai, India.
  19. Proposal is for website <http://glauuniversity.in>
  20. Additional Exchange charges as applicable per segment, per platform will be charged as per exchange norms. Currently NSE charges are applicable if NSE data is being subscribed to from CMOTS Internet Technologies Pvt Ltd. NCDEX charges are applicable if NCDEX data is subscribed to from CMOTS Internet Technologies Pvt Ltd.
  21. Any additional work not covered in the proposal /project will be charged extra at the rate of Rs. 9500/- plus Service Tax per man days depending on the work involved. Data charges will be additional
  22. Both the parties agree to execute a full fledged DSA (Data Subscription Agreement) within 15 days from execution of this proposal.
  23. Dedicated IP and SSL certificates will be charged additionally as per the prevailing rates

We are Pleased to confirm the above Proposal Cum Contract.		For CMOTS Internet Technologies Private Limited
